

# The openEHR Clinical Review Board (CRB)

---

## Introduction

The *openEHR* Clinical Review Board (CRB) has been established by the *openEHR* Foundation Executive to advise on clinical aspects of its work, including strategic direction, programmes of work and deliverables.

The overall working approaches of *openEHR*, covering requirements, architecture, engineering and implementation, are documented in the *openEHR* architecture Change Management Plan (CMP), which provides a framework for the work programme that the CRB will manage and quality assure, in partnership with the *openEHR* Architecture Review board (ARB).

The [CRB Terms of Reference](#)<sup>1</sup> will be kept under review, as required, by the Foundation Executive, in consultation with the CRB members.

Current Chair: Dr Tony Shannon
