

The .Net Knowledge Tools Project

Description

This project develops tools for creating and managing clinical knowledge artefacts such as archetypes, templates and terminology, for the Microsoft .Net platform.

Vital Statistics

Project Team	Dr Sam Heard (Ocean Informatics) Peter Gummer (Ocean Informatics) Heath Frankel (Ocean Informatics)
Project Contact	Peter Gummer ¹ (remove X)
Language(s) & Technologies	VB.Net, C#.Net
ARB change managed	No
Source repository	<ul style="list-style-type: none">• Subversion repository web view²• Subversion repository name = ref_impl_dotnet; URL:<ul style="list-style-type: none">• top: http://www.openehr.org/svn/knowledge_tools_dotnet/• other apps & libraries: use web view⁴ to search
Downloads	From the Archetype Editor home page ⁵ .
Issues	<ul style="list-style-type: none">• Problem Report tracker⁶• CRs
Contributors	Thomas Beale, Peter Schloeffel, Koray Atalag, Sebastian Garde, Shahla Foozonkah, Jana Graenz, Peter Gummer
Translations	Turkish - Koray Atalag, Ömer Hotomaroglu; German - Sebastian Garde, Thilo Schuler; Swedish - Per-Arne Lundgren; Danish - Knut Bernstein; Farsi - Shahla Foozonkah; Spanish - TBA; Korean - Seoung Jong Yu;
Status	Currently maintained by volunteers from Ocean Informatics, University Qld, and various others.
